

# Pando apartments

- Advertorial -

**I**n a time of a financial crisis here in Spain no one was worse hit than the real estate agents here on the Costa del Sol. So it is always fantastic news to see a new agency opening right here in Marbella, with their bright modern office on the Ricardo Soriano.

PandoApartments are a Polish company and are very well established in their home town of Warsaw. After moving to Marbella just 2 years ago a great opportunity was

seen by the company to develop a relatively recent interest of the Polish people to purchase properties over here in Spain.

The owners are keen to point out this new client base. "We moved here 2 years ago" she says "and we know from just about everyone we know back home in Warsaw how much they love this area of Spain. The Costa del Sol has always been such a popular area for foreigners of all nationalities and the Polish

are no exception"

Just last Saturday night was the opening party in the office, with delicious Polish buffet and was a great opportunity for other agencies in the area to meet each other. The company speak several languages including Polish, Spanish, English, Russian and French.
